

Plattsburgh Sunrise Rotary's **Start - Sailing** event is getting underway!

We're excited to bring the fun of sailing in the Mayor's Cup Regatta to the shores of Lake Champlain. Join experts and enthusiasts for a hands-on learn-about-sailing experience. Children and beginners are invited to channel the race, from the calm of a lake-side seat:

Plattsburgh Boat Basin presents a full-sized sailboat! It will be cradled and placed in the middle of the Plattsburgh City Marina parking lot, on Dock Street, for easy viewing. It will be the heart of each session's instruction.

Coast Guard Auxiliary Flotilla 15-08 representatives will be present to educate about the anatomy of a sailboat, the fundamentals of sailing, and provide basic instruction on water safety. Sailor-instructors are, as follows:

Robert Shivokevich
Charlie Schenck
Stephanie Lago
Hugh Conners
Mary Lago

Steve Frederick of **Clinton County Community College's Mobile Classroom**, will showcase a limited amount of 3-D printed plastic sail boats, as take-aways, while he discusses skills-based training and other learning opportunities accessible in cooperation with Clinton County Community College. The mobile classroom's specifications and an explanation of its outreach mission can be found at the following link:

<https://www.clinton.edu/CollegeRelations/Content-news/nid/16944/gid/3/announcement.cml>

Join us, from 11am until 3pm, July 6, 2019. Sessions will last half an hour (and longer, if group-size allows). Don't miss this great opportunity to learn about sailing, in the Lake City!
